AMENDMENTS TO THE CLAIMS

1-40. Canceled

- 41. (Currently amended) A method for enhancement of increasing adiponectin production in a warm-blooded animal, comprising administering to a warm-blooded animal in need of such treatment an effective amount of one or more HMG-CoA reductase inhibitor(s).
- 42. (Currently amended) A method for treatment or prophylaxis of Syndrome X or metabolic syndrome in a warm-blooded animal, comprising administering to a warm-blooded animal in need of such treatment an effective amount of a composition consisting essentially of one or more HMG-CoA reductase inhibitor(s).
- 43. (Currently amended) [[A]] <u>The</u> method according to claim 41 or 42, wherein the HMG-CoA reductase inhibitor is selected from the group consisting of pravastatin, lovastatin, simvastatin, fluvastatin, cerivastatin, atorvastatin, pitavastatin and rosuvastatin.
- (Currently amended) [[A]] <u>The</u> method according to claim 41 or 42, wherein the HMG-CoA reductase inhibitor is a water-soluble HMG-CoA reductase inhibitor.
- 45. (Currently amended) [[A]] <u>The</u> method according to claim 41 or 42, wherein the HMG-CoA reductase inhibitor is selected from the group consisting of pravastatin or a derivative thereof and rosuvastatin or a derivative thereof.
- 46. (Currently amended) [[A]] The method according to claim 41 or 42, wherein the HMG-CoA reductase inhibitor is selected from the group consisting of pravastatin and rosuvastatin.

47. (Currently amended) [[A]] The method according to claim 41 or 42, wherein the

HMG-CoA reductase inhibitor is pravastatin.

48. (Currently amended) A method for treatment or prophylaxis of

hypoadiponectinemia in a warm-blooded animal, comprising administering to a warm-blooded

animal in need of such treatment an effective amount of one or more water-soluble HMG-CoA

reductase inhibitor(s).

49. (Currently amended) A method for improving insulin resistance in a

warm-blooded animal, comprising administering to a warm-blooded animal in need of such

treatment an effective amount of a composition consisting essentially of one or more water-

soluble HMG-CoA reductase inhibitor(s).

50. (Currently amended) A method for treatment or prophylaxis of hypertension in a

warm-blooded animal, comprising administering to a warm-blooded animal in need of such

treatment a composition consisting essentially of one or more water-soluble HMG-CoA

reductase inhibitor(s).

51. (Currently amended) A method for treatment or prophylaxis of obesity in a

warm-blooded animal, comprising administering to a warm-blooded animal in need of such

treatment a composition consisting essentially of one or more water-soluble HMG-CoA

reductase inhibitor(s).

52. (Currently amended) A method for treatment of arteriosclerosis in a

warm-blooded animal, comprising administering to a warm-blooded animal in need of such

treatment a composition consisting essentially of one or more water-soluble HMG-CoA

reductase inhibitor(s).

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESS''LL' 1420 Fifth Avenue Suite 2800 Seattle, Washington 98101 266 682 BIU0

- 53. (Currently amended) A method for treatment or prophylaxis of diabetes, diabetes complications, hypertension, obesity, or arteriosclerosis in a warm-blooded animal, caused by hypoadiponectinemia, comprising administering to a warm-blooded animal in need of such treatment a composition consisting essentially of one or more water-soluble HMG-CoA reductase inhibitor(s).
- 54. (Currently amended) A method for treatment or prophylaxis of hypertension, obesity, or arteriosclerosis in a warm-blooded animal, caused by insulin resistance syndrome, comprising administering to a warm-blooded animal in need of such treatment a composition consisting essentially of one or more water-soluble HMG-CoA reductase inhibitor(s).
- 55. (Currently amended) [[A]] <u>The</u> method according to any one of claims 48 to 54, wherein the water-soluble HMG-CoA reductase inhibitor is selected from the group consisting of pravastatin and rosuvastatin.
- (Currently amended) [[A]] <u>The</u> method according to any one of claims 48 to 54, wherein the water-soluble HMG-CoA reductase inhibitor is pravastatin.
- (Currently amended) [[A]] The method according to any one of claims 41, 42, and 48-54, wherein the warm-blooded animal is a human.
- 58. (Currently amended) [[A]] <u>The</u> method according to claim 53, wherein the diabetes complication is retinopathy, nephropathy, neuropathy, cataract disease, or coronary artery disease.
- 59. (Currently amended) [[A]] The method according to claim 41 or 42, wherein the HMG-CoA reductase inhibitor is selected from the group consisting of pravastatin and resuvastatin and wherein the warm-blooded animal is a human.

- (Currently amended) [[A]] The method according to claim 41 or 42, wherein the
 HMG-CoA reductase inhibitor is pravastatin, and wherein the warm-blooded animal is a human.
- 61. (Currently amended) [[A]] <u>The</u> method according to any one of claims 48 to 54, wherein the water-soluble HMG-CoA reductase inhibitor is selected from the group consisting of prayastatin and rosuvastatin, and wherein the warm-blooded animal is a human.
- (Currently amended) [[A]] The method according to any one of claims 48 to 54, wherein the water-soluble HMG-CoA reductase inhibitor is pravastatin, and wherein the warmblooded animal is a human.
